## Women and Sustainable Decision Making

### Representation

Globally, **27%** of parliamentary seats are held by women

**36%** of national climate negotiators are women

### Education and Skills

**Two-thirds** of the world's **781** million illiterate adults are women

The **digital gender divide** limits women's access to **STEM** careers

Women spend up to **3x** more time than men in unpaid care and domestic work, restricting their ability to pursue learning and leadership opportunities.

### Economic Participation

**32%** of the clean energy workforce are women

**0.01%** of global climate finance supports gender-equal climate initiatives

Closing gender gaps could increase global GDP by up to **6%**

### Leadership and Influence

Countries with more women in government adopt **stronger environmental policies**

Women control around **75%** of discretionary purchasing and are more likely to favor ethical, sustainable products.
